### **REASON FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record Unmehopa (US 2004/0198380,) teaches a communication system including providing a discount to a calling party wherein a location of a mobile user can be detected such as being in a store and then using this location indicator for the basis for providing an incentive to a user not by the service provider but by for instance, the store owner.

The prior art of record, however, fails to teach a method operative with respect to a telephone conversation having at least one party operating a mobile telephone in accordance with an arrangement with a service provider, the method comprising: detecting whether the mobile telephone is present within a pre-defined geographical area and responsive to detecting that the mobile telephone is present within the pre-defined geographic area, writing data to a billing record to indicate that a second party has been billed for mobile telephone airtime charges of the least one party operating a mobile telephone, wherein the second party is a party other than the at least one party operating the mobile telephone, (ii) other than the service provider and (iii) other than a party *calling* the least one party operating the mobile telephone as claimed and substantially connected in claims 1-36.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
